HIS FORMER CLERK SIGNED THE CHECK. W. J. DAINTY FORGES J. G. M'MAHON'S NAME AND IS ARRESTED.

William J. Dainty, a former clerk for the law firm of McMahon, stapleton & Wise, with an office in the Arbuckle Bullding, secured \$500 on a check to which of the firm, yesterday. A warrant for his arrest was issued, and a detective followed him to the Grand Central Station where he was arrested. Dainty is twenty years old and fives at No. 133 Harrison-st. His father, now dead, was a lawyer. He went to the office of the law firm yesterday morning with H. L. Bryant, also a former clerk for the firm. The services of both were dispensed with on January 1, as they were no longer needed. Dainty had done the banking business for the firm, and was familiar with the signatures of the partners. When he went to the National City Bank with the check he had no difficulty in getting the money on the check, but the teller subsequently had doubts in regard to the large amount of the check which was made payable to bearer, and telephoned to Mr. McMahon, who pronounced the sig-nature a forgery. The warrant was at once secured, it was found that the two youths had purchased tickets will receive a fortune of \$25,000 when he comes

THE GARDEN AND THE HORSE SHOW.

OFFICERS OF THE TWO ASSOCIATIONS WILL NOT TALK ABOUT THE TROUBLES DETWEEN THEM.

The ice als closed many a harbor tight and fast, bu not one in the whole country is so near being hermetically scaled as the lips of the directors of the National Horse Show Association of America. tion in The Tribune of an account of the disagreements between the Association and the Madison Square Garden Company, the men infimately connected with both Tribune came from the lips of one of the officials of the Horse Show, but he cannot now be found out who are accused of abetting the illegal registration guard over his verbesity.

James A. Balley, the circus man, has had a good feal to say in one way or an ther about the troubles in the Garden Company, but the main issue has been successfully dodged by all concerned in the con-troversy. Mr. balley makes charges of mismanagement against the directors of the Garden, but calls, no names. He might as well have said what he did | Jud say in a more specific manner. It has been reported in many newspapers 1757 be intends buying the Metro. No. 327 Tenthest., South Brooklyn, to the Eintra politan Opera House if & cannot get a controlling Reformatory. The young man robbed Lazard Figure Interest in the Garden. This, in the emphatic language of one of his associates, is all bosh and non-clerk, of \$517. sense. The Opera House is entirely unfitted for the es to which Mr. Bailey would want to put it. block it occupies is not large enough for a building such as a circus would require. He has had, in the opinion of this associate, no intention whatever of buy ing the property. So much for that statement. The Horse Show Association is managed by a heard

of thirteen directors, who are Cornellus Fellowes, the president; John G. Heckscher, the vice-president; H. II. Hollister, the treasurer; W. F. Wimrton, the secretary, and Colonel Lawrence Kip, Thomas Hitchcock, Ir., A. J. Cassatt (elected only a week ago to take the place of H. W. T. Mali), H. I. Nicholas, F. K. Sturgls, Frederic Bronson, J. G. K. Lawrence, ex-Governor George Penhody Wetmore, and A. Newbold Morris, Mr. Sturgls is the president of the Madison Square Garden Company, though the holder of only a small amount of stock. Mr. Wharton is the managing 61rector of the Garden Company, the man who, according to the statement of Mr. Bailey, receives a salary of \$12,000 a year for doing nothing. In the list of the stockholders of the Garden Company, published a few days ago, Mr. Wharton posed as the holder of more shares than any other man. The stock in his name is said to belong to W. K. Vanderbilt and one

situation, "is fraid of losing his sinecure, therefore Situation, "Is a subject to an increased supply. State and "nearby" to an increased supply. "What will be the result of this misunderstand-

ing " he was asked.

"Well, that would be hard to say. I think Mr.
halley will eventually get the Garden. He is playing a big game of bluff just now, but he is on the right track, and will win in the end. The best men among the stockholders are with him. He has received proxies from a number of them, and in a week or two you will hear something drop."

A HIGHLY SEASONED STEW

From The Philadelphia Record.

A well-dressed and prosperous-looking citizen entered a well-known oyster saleon not far from Sixth and Chestnut sts. yesterday and called for "a siew rich and well done, and." he added, "dent' make the dish too full." When the stew was placed before him he proceeded to season it. First he shook a salt caster over the miley soup about a dozen times, then he gave a red-penper bottle an equal number of dashes. This he followed by liberal quantiles of vinegar, sherry wine. Worcestershire saace, catsup and several dipperfuls of horseradish. He next broke up one dozen water crackers into the stew and mixed the whole business up into a sort of mush. Having theroughly stirred it together he looked around at the astonished observers and said in a lond voice: "Two often wondered why they not all these things in front of a fellow when he calls for ovsters. Eve now given the thing a trial. I wanted to see what a stew would look like with all of ben in it. This will cost me a quarter, and I'll give a dollar to anybody that'll eat the mess." Nolody volunteered to earn the dollar, and the man, after emptying part of a glass of fee water into the conglomeration, walked up to the cashier's desk, paid his bill and marched out, well," said the waiter as he removed the dish, "If there ain't some of the d—est cranks in this world, I'll be blowed,"

The New Bread.

Following is the receipt for making the sweetest, finest flavored and most delicious bread, without yeast.

Retains entire the most wholesome, nutritious and valuable elements of the flour-the starch, sugar and gluten-which are largely decomposed and lost by the action of yeast.

Most economical, as nearly ten per cent. of the flour (destroyed when yeast is used) is saved. Most convenient, taking less than an hour to make and bake, and most cleanly:

To Make I quart flour, I teaspoonful salt, half a tea-One Loaf. spoonful sugar, 2 heaping teaspoonfuls Royal Baking Powder,* half medium-sized cold boiled potato, and water. Sift together thoroughly flour, salt, sugar, and

baking Powder; rub in the potato; add sufficient water to mix smoothly and rapidly into a stiff batter, about as soft as for poundcake; about a pint of water to a quart of flour will be requiredmore or less according to the brand and quality of the flour used. Do not make a stiff dough, like yeast bread. Pour the batter into a greased pan, 4%x8 inches, and 4 inches deep, filling about half full. The loaf will rise to fill the pan when baked. Bake in very hot oven 45 minutes, placing paper over first 15 minutes baking, to prevent crusting too soon on top. Bake immediately after mixing. Perfect success can be had only with the Royal Baking Powder.

From The Beston Herald (Mugwump).

The Democratic party of New-York, as now organized, is a party that recognizes Hill as a dictator, and Croker as a part of it submits to his dictation. There is nothing to which Grover Cleveland is more opposed than this. He cannot possibly recognize any such organization as the Democratic party of New York. It is a consplained against the Democratic party of the Nation. The only course open to Cleveland is to conduct his Administration without recombring the Hill treker expanization as the Democratic party at all, and to appeal to those of his supporers there who are in suspenity with the principles and the methods of administration to premote which he was elected to form a new organization. This, of course, involves a division of the party, it is a division which Cleveland himself has not invoked. It is none the less one that must come.
